Summaries for each seat include revised recommendations from manufacturers, minimum and maximum weights, first and last dates made, harness threading and belt path diagrams, and identification photos. The 2007 CD, created by SafetyBeltSafe U.S.A. with support from Nissan North America, includes **80 new or revised instructions**, updated summary sheets, and the instructions (unless updated) from the 2005 CD. Order #450CD.

Single copy of CD, \$10; \$8 each for 100-249; \$7 each for 250-499; \$5 each for 500 or more, shipping included.

Color Pictorial Guide to Child Restraints

This collection of color photos makes it easier to identify child restraints inspected at events when model names are missing. The model name is essential to find the correct instructions and check the recall list. August 2007 edition. Order #50. \$50 + shipping/handling (see chart on order form).

List of Recalls and Replacement Parts for Child Restraints

Revised every time there is a new recall, the SafetyBeltSafe U.S.A. list is the most comprehensive recall list available. In addition to official recalls, it includes information about other replacement parts provided voluntarily by manufacturers. Safety seats without a recall also are listed, which prevents the dangerous error of assuming there is no recall if the correct name of the seat is not recognized. Order #179. \$10 for reproducible master, shipping/handling included, or subscribe to the Recall Update Service (see below).
