

SafetyBeltSafe U.S.A.

Child Passenger Safety Resources and Technical Materials

IF YOUR PROGRAM INCLUDES . . .

- √ Safety seat checkups
- √ Safety seat loan or low-cost purchase programs
- √ Law enforcement checkpoints for child restraint use
- √ Teaching parents how to use car seats correctly

. . . YOU NEED THESE TOOLS:

Protect your program from liability by using accurate, up-to-date materials. Don't take a chance with a child's life!

PLEASE REFER TO THE CHART ON THE ORDER FORM FOR SHIPPING CHARGES.

The Child Passenger Safety Reference Manual

Part 1: Reference and Teaching Guide. This guide, used in the eight-hour SafetyBeltSafe Educator Workshop, contains curricula for health professionals, statistics, information on laws and regulations, sample speech outlines, resource lists, up-to-date technical information, and guides for safety seat distribution program development, special needs transport, and early childhood programs. **Part 2: CD with Child Restraint Manufacturer Instructions and Summary Sheets** (see next item for details). Order #45-49. \$50 + shipping/handling (see chart on order form).

Child Restraint Manufacturers' Instructions with Summary Sheets (#450)

Compilation of complete manufacturers' instructions for child restraints made since 1999 with summary sheets developed by SafetyBeltSafe U.S.A. Summaries for each seat include revised recommendations from manufacturers, minimum and maximum weights, first and last dates made, harness threading and belt path diagrams, and identification photos. Order #450CD. Single copy of CD, \$15; \$12 each for 100-249; \$10 each for 250-499; \$7 each for 500 or more, shipping included. High-quality printout, stapled (5000+ pages). Order #450P. \$250 + shipping/handling (see chart on order form).

Color Pictorial Guide to Safety Seats

UPDATED FOR 2010. This collection of color photos makes it easier to identify safety seats and boosters inspected at events when model names are missing. The model name is essential to find the correct instructions and check the recall list. Order #50p. Order printouts at \$50 each + shipping/handling (see chart on order form).

Color Pictorial Subscription. Download the PDF and print a specified number of copies. Print 1-9 for \$30 each; 10-19 for \$25 each; 20-49 for \$20 each; \$1000 for unlimited copies for one year (to be printed and distributed by your agency only). Order #50s (subscription) and specify quantity.

List of Recalls and Replacement Parts for Child Restraints

Revised every time there is a new recall, the SafetyBeltSafe U.S.A. list is the most comprehensive recall list available. In addition to official recalls, it includes information about other replacement parts provided voluntarily by manufacturers. Safety seats without a recall also are listed, which prevents the dangerous error of assuming there is no recall if the correct name of the seat is not recognized. Order #179. \$10 for reproducible master, shipping/handling included, or subscribe to the Recall Update Service (see below).

Subscriptions Recommended for CPS Technicians, Instructors, and Program Managers

Check appropriate boxes on order form. Subscriptions are based on a calendar year (the following year is included if paid October 1 or later). Contact stombrello@carseat.org to request CEUs (provide Tech or Instructor ID #). Go to www.carseat.org for information on group subscriptions.

Recall Update (\$50 minimum)	<i>SafetyBeltSafe News.</i> Our bi-monthly newsletter on child passenger safety. Approved for CEUs for Certified Technicians (consult CPS Express for details). <i>List of Recalls and Replacement Parts for Child Restraints.</i> Online access to a printable version of the most current, comprehensive list available. An up-to-date recall list and other technical or program materials will be provided by regular mail, if necessary.
CPS Tech Access (\$100 minimum)	All of the above plus online access to download and print new and revised manufacturers' instructions for child restraints not included on CD (see #450 above for description).
CPS Tech Special (\$135 minimum)	All of the above plus <i>Safe Ride News</i> (an \$87 value) through the calendar year and the current manufacturers' instructions CD (see #450 above for description).

Resources for Community Programs

TEACHER'S GUIDE: A POSITIVE APPROACH TO TEACHING PASSENGER SAFETY TO YOUNG CHILDREN (Bucklebear) by Dillman, Leonard, and Chang (6th Edition). This guide presents a comprehensive program for teaching passenger safety to nursery school age children (3 to 5 years) and to their parents. The program was developed at UCLA with an innovative grant from National Highway Traffic Safety Administration. Restraint use doubled at schools participating in the pilot program, and the curriculum was received enthusiastically by children, parents, teachers, and administrators. Described activities can be adapted easily to existing materials. The Guide also can be used with "Riding with Bucklebear" materials by Weiner/Seaman Productions. Order #86. \$15 for loose pages or \$18 with binder + shipping/handling (see chart on order form).

BLUE AND BLACK ON WHITE REFLECTORIZED ALUMINUM SIGNS
